

"THE CANARY MURDER CASE"

Saskatchewan might be termed the "epicenter" of Canada's "new" Western Province has a more interesting population, for the fabric out of which that population has been woven is not so homogeneous as so many racial cultures. Of the eight hundred and seven thousand people who live in the province, three-fourths are of British descent with English and Scots blood predominant. Over 100,000 of the population were born in Canada, and of these a small but notable sprinkling are of French descent. The remaining eighty thousand were born in the British Isles. Continental Europe has added twenty-two racial strains to the larger Anglo-Saxon group, summarized as follows: (55,000), Scandinavian (20,000), Teutonic (15,000), Slavonic (14,000), and aboriginal Indian population numbers about 13,000. Each of these groups has an interest in contributing to Canadian art and music, for each has its traditions of handicrafts and folklore.

The Red Rose Tea guarantee means what it says. If not satisfied return the unused part in the package and the grocer will refund your money.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good

In the best package—Clean, bright aluminum

Radio Broadcasting In Canada

The Canadian Government recently appointed a Royal Commission to study and make report on the whole subject of radio broadcasting in Canada. That Commission, headed by Sir John Aird, is at present in Europe studying the methods employed in Great Britain and some of the continental countries. It proposes to also study the methods followed in the United States, and, later, will hold public sittings throughout Canada with a view to obtaining the opinions of Canadian citizens.

The importance of this Commission's work can hardly be overstated. Radio has, in a few short years, come to occupy a vital position in the lives of the people, while the future possibilities of this newest form of entertainment, and its importance as a means of publicity, are such that the national interests demand that a well defined policy in the interests of all concerned, but more particularly in the interests of the Dominion itself, be developed with the least possible delay.

The question that naturally arises in the minds of patriotic Canadians is whether or not the radio in Canada is to be dominated by wealthy and powerful private interests in the United States, just as the moving picture business has been, or whether Canada will itself develop an acceptable system of national broadcasting.

It has to be recognized and accepted as a fact that the great United States moving picture corporations control the situation in Canada, if not through actual ownership and management of Canadian moving picture theatres, at least through the making and distribution of the films that are shown in this country. There can be no successful denial of the assertion that because of this control of films it is possible for United States ideas, sentiments, enterprises, modes of living, and general propaganda of all kinds, to be insidiously injected into the lives and thoughts of the Canadian people. In a word, one of the most powerful agencies for the dissemination of ideas throughout Canada is in the hands of private and wealthy corporations in a foreign country.

To a large extent the same situation has developed through the enormous circulation which United States magazines and periodicals of all kinds have secured in Canada. Apart from the effect which the reading matter in these periodicals has upon Canadian thought, the advertising matter constitutes a powerful agency attracting millions of Canadian dollars across the line for the purchase of United States products.

In Great Britain radio broadcasting is under the direction of the Government through the medium of a national broadcasting organization. Owners of receiving sets pay a license fee, and the money thus realized is expended in providing worthwhile programmes. In the United States, on the other hand, broadcasting is in the hands of private interests. Good programmes are nationally broadcasted, but they are paid for through advertising sandwiched in at intervals throughout the programmes. All this material, specially prepared for United States consumption and to meet the requirements and promote the interests of United States business, is carried through the air into hundreds of thousands of Canadian homes every day in the year.

It is not necessary to be anti-American, or in the slightest degree unfriendly to the United States, to nevertheless realize that this is not a good thing for Canada in a national sense. Our Canadian broadcasting stations are widely scattered over the Dominion. They have not the broadcasting power of the big U.S. stations. Nor have they the reach bottle to finance the same type of high class and expensive programmes offered in the United States. Canadian national advertisers have not the same large market to appeal to, and consequently cannot afford to spend tens of thousands of dollars in radio advertising.

Furthermore, do the Canadian people prefer private control of radio broadcasting, financed on the basis of advertising to the system which finds favour in Great Britain of national broadcasting financed through the payment of a reasonable annual license fee by owners of receiving sets who are the real beneficiaries of the broadcasts?

The influence of radio must be admitted. It already occupies a position along with the newspaper and the moving picture as a medium of information and a source of education and entertainment. It is here, and here to stay, to grow, to develop as perhaps few even now imagine. It will be a power for tremendous good or evil. It is essential that Canada, not neglecting the opportunity it presents, should adopt a wise policy in regard thereto.

Many Divorce Cases

With a marked increase in petitions within the past week the senate divorce committee has the largest accumulation of divorce cases in history. The number so far is 214, with 188 from Ontario and 26 from Quebec. Wives seeking divorce in 121 cases and husbands in 93.

Covered Everything

Candidates for political office, successful or otherwise, who are required by law to file campaign expenses returns, may be interested in this particularly succinct one filed in Massachusetts: "Paid nothing, promised nothing, got nothing."

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

At the Paris law courts there is an old lady of 80, who has been employed for the last 50 years as shorthand writer, and is still active.

Acid Stomach

Excess acid is the common cause of indigestion. It results in heartburn and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude medicines, never continue to suffer, when you know how quick, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 60 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Canada's Climate Attractive

Even Winter Weather Is Enjoyed By Majority Of People

The Montreal Star says: "It has been the fashion for many years to quote Canada as a wintry land. The habit has persisted, despite the actual facts regarding our climate, which probably presents the widest latitude in conditions of any country in the world today. But just now Europe is having a taste of what a really hard winter can achieve. Steel bridges have been cracked in two by Arctic temperatures of a severity almost unknown in modern records. Shipping in the north is icebound, and even the Black Sea is beginning to freeze over—and event unrecorderd within living memory.

Now if the people who are at present suffering so acutely were in Canada, they would be enjoying themselves. We have not been attacked by an unprecedented cold weather, and the general conditions throughout the country have not been such as to cause any discomfort. Indeed, there is good ground for utilizing the attractiveness of our climate as a drawing card for intending immigrants. Instead of frightening them with lurid pictures of winter of an Arctic character. A little more truth, and a little less border rubbish, would help immigration better than lantern slides and flaming posters on the walls."

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

Peace River Settlement

A Million Acres Of Land Taken Up By 5,000 New Home-owners

Approximately one million acres of land were taken over last year by 5,000 new home-owners in the Peace River country. The Rt. Rev. E. P. Robbins, D.D., Bishop of Athabasca, stated in an address before the Empire Club at Toronto, on Monday, that if the country will bear it, he said, "I fancy it will bear it for about 20 years at that rate."

LIFE WAS A BURDEN

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," says Mrs. W. J. Dowling, Tottenham, Ont., and further says: "I was so weak and run down that I felt that life was a burden. The doctor said my trouble was due to poor blood, but his medicine did not help me. My face was sallow, my lips bloodless and at the least exertion my heart would palpitate so violently that I would have to lie down. My feet and legs would swell and cramp, and all my friends thought I was in a declining condition. I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight, by the time I had used them I began to feel better. I got a further supply and kept on taking them. Only a few weeks more and I was a different person. I felt myself growing stronger. The color returned to my cheeks and lips and I felt a new interest in life. To sum up I can now say that I am feeling fine, for which I give the credit to Dr. Williams' Pink Pills, which I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont. Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price, 50¢. Try them today.

Where Nobody Is Young

Nobody is young in the little village of Bursledon, Hampshire. The inhabitants boast that their aggregate age, in proportion to the population, is the highest in the country. There are twenty-seven old folk whose years total 2,115—an average of seventy-eight each. Once Bursledon was a thriving community, but now strawberry growing is the only industry. All the young people have left for more fruitful fields.

A Power Of Its Own. — Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

Italy has forbidden the exhibition in any part of the kingdom of films depicting war episodes.

Use Minard's Liniment for the Flu.

W. N. U. 1775

Papered With Postage Stamps

Inn Near Bognor, England, Is Known As Stamp House

Near Bognor, where the King has been removed for his convalescence, there is an inn known as Stamp House. Its walls and ceilings are completely papered with old postage stamps, and festoons of them are looped from one side of a room to the other. The "collection" was started many years ago by a former host of the place, who had a passion for stamps, and papered his first room with them. It is believed as a result of a wager. Under the mellowed varnish there must now be hundreds of thousands; and report has it that many in semi-hidden corners are rare and valuable.

BABY NOT GAINING? LOOK TO HIS DIGESTION

Babies can't gain when souring waste in a clogged digestive tract is forming gas, making them colicky, restless and miserable. Just try the method doctors endorse, and millions of mothers know, and see how your baby improves. A few drops of Fitcher's Castoria makes the most fretful, over-burdened child comfortable in a jiffy. A few doses and he's digesting perfectly and gaining as he should. To get genuine Castoria, look for the Fitcher signature on the wrapper.

Recipes For This Week

(By Betty Barclay)

NEW YORK SALAD

- 4 slices pineapple.
- 1 cup celery.
- 1/2 cup nut or chopped.
- 2 oranges.
- Cream mayonnaise.
- Lettuce.

Arrange slices of pineapple on nests of lettuce leaves. Cut celery in slender strips, one and one-half inches long, and mix with nut meats. Slice nut meats in thin strips, and garnish with four sections of orange, free from membrane, laid symmetrically on pineapple. Pass dressing separately.

BOILED CAKE FROSTING

- 1 cup sugar.
 - 1/2 cup orange juice.
 - 1/2 cup nut of one orange.
 - 1 egg white.
- In a smooth agate saucepan put sugar and orange juice and mix well, and boil, being careful not to stir. When the syrup boils it will spin a long thread when it drops from the tip of spoon. Lift gently from fire and pour slowly, while beating vigorously with a strong egg-beater, in a fine stream onto egg white but not stir. Continue beating until frosting is stiff enough to stay in place, pour all at once onto cake and spread over surface with a few movements of a large, flat knife.

Minard's Liniment prevents Flu.

Standards Of Greatness

Wealth Or Titles To Judge Of An Individual's Pre-Eminence

The mind of the average American is a curious mixture of materialism and sentimentality, and we must bear those qualities in mind when we criticize him. He has a great big heart and a keen eye for the almighty dollar, which is, for him, all intents and purposes, the mark and emblem of a man's success in life. Here, in Great Britain, titles, honors, orders and decorations are the rewards for pre-eminence. In America there is no "honors list." The only list that counts is the yearly statement of income tax paid by every citizen and published far and wide so that all can see how a man has risen above his fellows. No wonder, therefore, that everyone strives unceasingly to get rich.—Sir George Armstrong in The London Observer.

Strain Of City Life

The stream of living in the cities is today a more potent factor in causing insanity than the loneliness of the isolated farm and settlement on which emphasis has been so frequently laid in the past in Canada, according to Dr. W. M. English, medical superintendent of the Ontario Hospital, Brockville, with over 800 patients. On the other hand, telephones, motorcars and radios have broken down the isolation of the farmer and settler and insanity through loneliness is no longer found in the degree formerly known.

Swing Of High Buildings

The Eiffel Tower (884 feet) swings as much as three feet in a heavy gale; but the Woolworth Building (792 feet) and other tall skyscrapers do not move more than one and a half inches in high winds.

Just Right for This Weather

SHREDDED WHEAT

High in calories and warming carbohydrates—No fuss or bother—just warm in oven and serve with hot milk

Made by The Canadian Shredded Wheat Company, Ltd.

Need New Terminal Station

Frederick Palmer Recommends New Station At Montreal For C.N.R.

It is absolutely necessary to provide suitable passenger station accommodation for the Canadian National Railways at Montreal, says Frederick Palmer, the well known British railway terminal expert, whose services were retained by the government to study the matter of furnishing the eastern metropolis with more commodious terminal facilities for the Canadian National Railways and at the same time survey the possibility of a joint station for the C.N.R. and the C.P.R. Mr. Palmer's report to the minister of railways was made public.

Heavy Oil Production

Growing Importance Of Alberta's Oil and Gas Fields

The steadily growing importance of Alberta's oil and gas fields is shown in recently published figures. The production of Alberta wells for 1928, is placed at 489,531 barrels as compared with 321,154 barrels in 1927. Of the 1928 production the province in 1928 is placed at 14,198,859 million cubic feet as compared with 12,933,801 million cubic feet in the previous year.

Fishing With Power

Electricity has voided the use of fishing nets in many parts of Germany. Two copper cables, placed one on top and one below the water, are charged with electricity. Fish in the vicinity are electrocuted and come to the surface where they are gathered by these modern fishermen.

The Value Of Birds

Only Protection Country Has Against Insect Enemies

It is estimated that 10,000 caterpillars could destroy every blade of grass on one acre of cultivated land. As insect-infested trees may contain 12,000,000 aphids. The tree population of the country has been estimated at from 700 to 1,000 per square mile, and these birds, few enough in number, are our best protection against the insect enemies which they were intended to destroy. The man who kills these insectivorous birds is helping to destroy his own country.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Expeller, an excellent remedy.

There are places in India where there are about 600 inches of rain in some years.

Claims Many Victims in Canada and should be guarded against.

Minard's Liniment

Is a Great Preventative, being one of the oldest remedies used. Minard's Liniment has relieved thousands of cases of Grippe, Bronchitis, Sore Throat, Asthma and similar diseases. It is an Enemy to Germs. Thousands of bottles being used every day. For sale by all druggists and general dealers.

Minard's Liniment Co., Ltd., Yarmouth, N.S.

The family album is coming back. It is reported, but its companion, the gas jet that could be turned down low, has departed forever.

Near Cardiff, Wales, road repairers have placed a sign reading, "A car on the road is worth two in the ditch."

There are 209 rooms in Buckingham Palace.

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it's not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer's manufacture. While it is well known that Aspirin means Bayer's manufacture, to ensure the public against imitations, the tablets will be stamped with their "Bayer Cross" trademark.

INTERIM POOL PAYMENT ON THE 1928 CROP

Winnipeg. — An interim payment on the 1928 crop totalling more than \$26,000,000 is being distributed to Wheat Pool members of Western Canada, according to a statement by E. B. Ramsey, general manager of the Canadian Wheat Pool.

The payment is 12 cents per bushel on wheat grades one to five, and on flax and rye. Ten cents per bushel is being paid on number six wheat. Manitoba Pool members are receiving the sum of \$2,288,455.48 on deliveries of 18,408,000 bushels of wheat, and 703,760 bushels of flax and rye.

Members in Saskatchewan are receiving \$17,498,433.31 on 146,414,000 bushels of wheat, and 3,165,500 bushels of flax and rye.

The Alberta Pool payment of \$6,410,035.12 on 50,000,000 bushels of wheat. The total amount distributed is \$26,196,923.92.

The payment made at this time is the first payment to be made in grain of the 1928 crop following the initial payment made at the time of delivery by the grower. In 1928 the first interim payment was dated March 9, but pool officials state that the date of the payment was advanced this year so much as possible in order to accommodate the thousands of pool members who have been hard hit financially as a result of the very disastrous frost which occurred on August 23, 1928, and which was general over the three provinces.

The Saskatchewan crop was particularly damaged by this frost owing to the fact that there are so few districts in the province which were not affected to the extent of lowering the grade of the crop from two to four grades.

Commenting on this aspect of the 1928 crop, and on the payment now being made, A. J. McNeil, president of the Saskatchewan Wheat Pool said: "Notwithstanding the relatively higher price for wheat which prevails now as compared with the heavy crop season of 1923-24 when the Alberta Pool alone was operating in Western Canada, and notwithstanding the exceptionally heavy crop harvested by Saskatchewan farmers in 1928, there is no question that the wheat grower has just cause to be greatly troubled over the financial returns from his efforts last year. By way of comparison it may be said that for the period of the crop year, August 1 to January 31, the grading of Saskatchewan Pool deliveries from the 1927 crop showed only 22.23 per cent. as falling into the grades from No. 4 to feed, while the corresponding figures from the crop of 1928 is 55.81 per cent. The cause of this greatly increased percentage of lower grades from the 1928 crop is the widespread frost which occurred in August, 1928.

Appointed To Tariff Board

Ottawa.—Hon. James Robt, minister of finance, announced the appointment of Frank S. Jacobs, D.S.A., of Devonville, Alberta, to the vacancy on the tariff advisory board. Mr. Jacobs is a farmer, and succeeds Hon. D. G. McKenzie, who resigned to enter the provincial government of Manitoba.

For Educational Purposes

Brandon, Man.—That the Manitoba government set aside one-eighth of all the natural resources that came under provincial control for educational purposes will be urged as a result of a resolution passed unanimously by the annual convention of the Manitoba School Trustees Association.

Close Town Jail

Danville, Ill.—With the office of chief of police abolished as unnecessary and the lock-up abandoned as a fire-trap, this town of 6,000 inhabitants is now depending on an honor system. Any arrested person faced the prospect of lodging in the village hotel at the city's expense.

Has Had Effect

Ottawa.—Amendments to the Opium and Narcotic Drug Act, to provide for the deportation of aliens convicted of trafficking have had a salutary effect. Convictions have dropped from 1,349 in 1922, to 345 last year.

Grant Hall Received By Pope

Rome.—Pope Pius granted an audience to Grant Hall, vice-president of the Canadian Pacific Railway who is visiting in Rome.

W. N. U. 1773

Britain Will Adhere To Locarno Treaty

Has Not Considered Any Other Agreement With Foreign Powers

London, Eng.—Godfrey Locker-Lampson, under secretary of state for foreign affairs, assured the House of Commons that Great Britain would enter into no military agreement with other powers that would in any way be contrary to her obligations to Germany under the Locarno security pact.

He made this statement in answering one of the many questions propounded as a result of recent publication in Holland, of an alleged military pact between France and Belgium, the particular question being: "In assurance be given that no military discussion will be held with France or Belgium which would not include Germany, in order strictly to maintain British obligations under the Locarno pact?"

The reply was: "The member may be quite sure that we will do nothing contrary to the Locarno pact." Volleys of questions regarding the alleged Franco-Belgian military agreement, and reports that Great Britain had some connection with it, were fired at the government in the House, Godfrey Locker-Lampson made categorical denial of the rumors, saying:

"Apart from the treaty of Locarno no agreement involving a military commitment has been concluded since the war between this government and Belgium, nor is any military agreement or understanding in existence between the British general staff and that of any foreign country."

Purchase New Plane

Universal Airways, Limited, Order Another Machine For Use In Saskatchewan

Regina.—Speeding up their plans with the opening up of the weather, officials of the Universal Airways, Ltd., ordered for immediate delivery of a new cabin airplane for use in their proposed transport and express service in Saskatchewan.

The new machine will be capable of carrying four passengers or 500 pounds of freight. It will have a cruising radius of 550 miles and will be able to travel at a speed of 135 miles per hour when loaded. It will have a top speed of 150 miles an hour.

Company officials announced that it is proposed to order another machine within the next six or eight weeks. This machine would be the third of its kind purchased.

No Divorce Court For Ontario

Ottawa.—Defeat in the House of Commons of the bill to establish divorce courts in Ontario saw party lines badly broken on the division. Introduced as a private member's measure by J. S. Woodworth (Lab., Winnipeg North Centre), the bill was defeated by 99 to 68. Premier Mackenzie King and hon. A. G. Ritchie, acting Conservative leader, were not present for the division.

Died In Geneva

New York.—Frederick M. Harris, editor-in-chief of the publications of the Young Men's Christian Association, died in Geneva where he had gone last October for medical treatment, according to word received here by his associates.

Westminster Glee Singers

Famous Organization Making Tour Of Western Canada

Outstanding among the musical events of the present winter, is the visit of the Westminster Glee Singers, who are at present touring Western Canada. The excellence of this traditional group of singers is known throughout the Empire, and music lovers of the Canadian West are greeting with delight the appearance of these famous entertainers, seven of whom are boy contraltos. The program includes a charming arrangement of madrigals, plantation songs, folk songs, sailor chanteys and sacred selections. Following the success of the itinerary arranged for them in Western Canada.

Prince Albert, March 8 and 9; Saskatoon, March 11, 12 and 13; North Battleford, March 14; Vermilion, March 15; Vegreville, March 16; Oids, March 18; Ponoka, March 19, 1928, and the most travelled operator during the twelve months was R. K. Anderson, who may well lay claim to a world's record for his performance. Mr. Anderson covered 153,000 miles on duty, a distance which represents the circumnavigation of the globe several times. This operator is usually on duty on board the International Limited, the fast daily train operating between Montreal and Chicago. Trains on eight runs on the National System carry radio equipped cars, the Canadian National Railways being the first in the world to offer radio as part of the service provided for passengers.

Application Is Dropped

Canadian Northeastern Not Building Railway Into Peace River Country

Victoria, B.C.—The Canadian Northeastern railway dropped its application for right to build into the Peace River country and will not conflict with any plans which may be made in that direction for the Pacific Great Eastern, the provincially-owned line. With its part of its original application dropped, approval of the private bills committee of the legislature was given to the company's request for right to build a line for 285 miles from Stewart, a tidewater port in northern British Columbia, to Fort Graham, in the central northern part of the province.

The Northeastern also dropped its request for right to build a branch up the Peace river from Fort Graham for 100 miles, pending decision of the future of the government line.

PREMIER KING ON THE QUESTION OF RESOURCES

Ottawa.—The whole vexed question of the return of the natural resources to the western provinces was ventilated in the House of Commons recently. In a lengthy speech, Premier Mackenzie King reviewed the history of the natural resources problem and outlined the position today.

In brief, the situation at present, as dealt with by the prime minister, is as follows:

The province of Alberta is now considering an offer from the Dominion government of the return of its natural resources coupled with the payment to it of a subsidy amounting to \$562,000 annually for all time.

Saskatchewan has refused an offer of the transfer of its lands "without any strings attached," and the payment of the present subsidy.

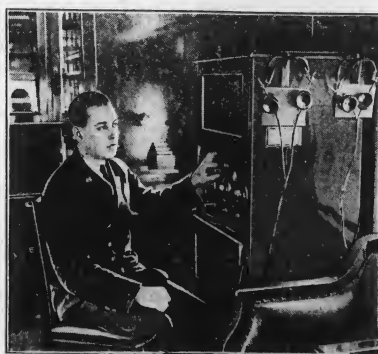

Agreement has been reached to transfer to British Columbia lands in the Peace River block and the railway belt. At present officers of the departments concerned are working on the necessary accounting having to do with the transfer.

With respect to Manitoba, a commission is now engaged on matters concerned with the handing over to that province of its lawful resources.

The Prime Minister made only passing reference to the Seven Sisters Falls lease to the Winnipeg Electric Company. The leader of the opposition had been critical of the haste which Mr. Bennett claimed prompted the government in its return of the natural resources to Manitoba.

Earlier in the session, the Premier continued, the same gentleman had condemned the government in its delay in dealing with this matter. Mr. King remarked, amid laughter, that "the whole reason of the haste was to avoid delay."

Radio Operator Has Travel Record

Trained operators in charge of radio-equipped cars in daily service on the Canadian National Railways travelled a total of 6,134,726 miles during 1928, and the most travelled operator during the twelve months was R. K. Anderson, who may well lay claim to a world's record for his performance. Mr. Anderson covered 153,000 miles on duty, a distance which represents the circumnavigation of the globe several times. This operator is usually on duty on board the International Limited, the fast daily train operating between Montreal and Chicago. Trains on eight runs on the National System carry radio equipped cars, the Canadian National Railways being the first in the world to offer radio as part of the service provided for passengers.

The illustration shows Mr. Anderson seated at the receiving apparatus in a library, comparatively, observation car.

RECEIVES NEW APPOINTMENT

J. M. McKay, newly appointed General Agricultural Agent, Western Lines, Canadian Pacific Railway.

Famous Flyer In Accident

Col. Lindberg and His Fiancee, Miss Morrow, Meet With Mishap. Mexico City.—Colonel Charles A. Lindbergh's flying skill saved the life of his fiancée, Miss Anne Morrow, when their plane capsize on landing at Vaheta Field.

The colonel is confined to bed in the American embassy residence with what embassy attaches describe as a "slightly dislocated shoulder blade." Miss Morrow was badly frightened, but not injured.

Colonel Lindberg was returning from an air trip of several hours with the girl whom he will marry. The aeroplane, a four-passenger monoplane named the "City of Wichita," had been crippled by the loss of a landing wheel and the colonel faced a situation of unusual danger with the chances favoring a crash.

He brought the plane safely to earth and taxied for thirty yards on one wheel with the axle of the missing wheel dragging on the ground. Suddenly the plane pitched forward and turned completely over.

Later, Colonel Lindberg declared "this is nothing at all. It is not an accident; it is simply a mishap."

Dynamite Plot Failed

Explosive Is Found In Office Of Premier Tachecheau, Of Quebec

Quebec.—Questioned as to a rumor that an attempt had been made on his life, Premier Tachecheau stated that when he went to his office in the parliament buildings at 10:45 p.m. he found a stick of dynamite on the floor with a half-burned fuse attached. The fuse had been extinguished by some agency after burning a few inches.

Premier Tachecheau had been attending a committee meeting in the parliament buildings and at its conclusion returned to his office.

Switching on the lights at once he noticed the dynamite lying on the floor.

Premier Tachecheau had the explosive removed by police and it was discovered to be dynamite of the most powerful type.

Employment Situation Shows Improvement

Better In Canada Than In Any February On Record

Ottawa.—Employment in Canada on February 1, was in better condition than on that date in any year on record, according to the Dominion Bureau of Statistics. Reports from 6,991 firms showed a total of 633,843 employees as compared with 621,494 on January 1.

The contraction on the prairie provinces was less than on February 1, 1928. The situation continued better than on the same date in any year on record.

Manufacturing and logging advanced, while there was a shrinkage in trade, construction, transportation and communications. The situation was also better in British Columbia as compared with the same date last year. There was substantial improvement in mining but logging, manufacturing and transportation were slacker.

Pioneer Lake Captain Dead

John Cousens Saw First Steamship

Port Arthur, Ont.—Marine Captain John Cousens is dead here aged 82 years. At Sault Ste. Marie he saw the passing of the Rescue, the first steamship to sail Lake Superior. He sailed on the Chicago, famous blockade runner.

In 1871 before the advent of the Canadian Pacific Railway, he carried mail over the ice route between Duluth and Port Arthur. He served with the Queen's Own in the Fenian Raid and was one of the guard of honor at the opening of the proclamation of Confederation in Toronto, in 1867. Later he served with Wolseley in the Northwest.

Forced To Swallow Knife

Toronto Things Use Inhuman Method On Victim

Toronto.—Angered at the small amount of money they found on his person, two thugs forced Angelo Augustus, 35, Toronto, to swallow a jack knife, more than four inches in length.

Angelo is now in hospital where doctors hope to save his life.

According to the victim one of his assailants attempted to make him swallow the knife with the blade open but his accomplices interfered and the blade was closed.

TESTIMONY GIVEN ON MANITOBA POWER DEAL

Winnipeg.—Negotiations between the Winnipeg Electric Company and the Bracken government regarding the Seven Sisters Power site were not affected by any advance knowledge of the Hogg report conveyed to the private firm, Edward Anderson, K.C., president, stated recently. Before the Royal Commission investigating charges made by Colonel F. C. Taylor against the Bracken government, Mr. Anderson testified that the agreement was made after "real, genuine, honest, bona-fide negotiations."

The Winnipeg Electric Company would not have made the bargain as it resulted had they known the nature of the Hogg report. Mr. Anderson stated, but would have "held out" for better arrangements. The report submitted by Dr. T. H. Hogg, consulting engineer for the Ontario Hydro Commission, has been regarded as the influence leading the Bracken government toward leasing the Seven Sisters site to the Winnipeg Electric Company.

That negotiations with the Bracken government almost "blew up" owing to the fact that A. W. McMillen, that time president of the Winnipeg Electric Company, considered the government was "driving too hard a bargain," was stated by Mr. Anderson.

Counsel appearing before the Royal Commission have intended no imputations whatever against the character, integrity or sincerity of Dr. T. H. Hogg, who submitted an expert report to the Bracken government, it was announced by Chief Justice Macdonald, after an examination of documents.

A telegram had been received from Dr. Hogg referring to "insinuations" reflecting on his integrity and made at yesterday's session of the commission. It was not stated whether he would be called to appear, though his telegram had mentioned that he wished to be heard as soon as possible.

PRIORITY RIGHTS ARE CLAIMED BY TWO COMPANIES

Ottawa.—The bone of contention between the Canadian National Railways and the Canadian Pacific Railway, with regard to the branch line program, came up before the parliamentary committee on railways and canals. Except for one area, an agreement has been reached between the two companies in connection with their program. The single exception is the line projected between Melfort and Aberdeen, in Saskatchewan, to which both companies claim priority construction rights.

Sir Henry Thornton, president of the National System, told the committee that the Government owned road claimed this territory by virtue of the fact that 12 years ago, the old Canadian Northern had already started building there, and had already graded 19 miles of the 67 mile project. Four years ago, this line had been one which had been presented to the Government in the company's program, but with others it had been rejected by the Senate. He felt that the railway had given ample evidence of its good faith in proposing to carry on with the construction. Commenting on a protest by A. F. Totzke, of Humboldt, Sir Henry declared that the C.N.R. did not claim any part of Canada as exclusively Canadian National territory, but felt that reasonably and as a matter of common sense, that particular line, upon which work had already begun should be regarded as within the scope of C.N.R. construction.

E. F. Flintoft, K.C., counsel for the Canadian Pacific Railway, declared that last year, his company had carried on surveys, upon the representations of the inhabitants of this district, and on their declarations that the C.N.R. did not contemplate building a line there. He felt that the committee should grant the charter in order that it might keep faith with the public.

Death Of Sir James Aikins

Former Lieutenant-Governor Of Manitoba Passes Away

Winnipeg.—Sir James Aikins, K.C., former lieutenant-governor of Manitoba, and a distinguished member of the Canadian bar, died early Friday morning.

Sir James, who was in his 78th year, died at the residence of his son, Major H. Harold Aikins, shortly after midnight. He had been ill for a week, when he suffered a heart attack.

Sir James had a brilliant career in law, politics, the church and business, which won for him an international reputation. He was one of the founders of the Canadian Bar Association, and for many years was its president.

Complete Trip By Boat

Saigon, French Indo-China.—The French aviators, Joseph Lebrun and Sergt. Major Antoine Paillard, will complete their trip from France about the steamer "Eclair" on Friday, March 5, a message here states. It is said their plane was wrecked in the crash which occurred about 122 miles from Rangoon. The occupants were unhurt.

Will Search For Italia Crew

Rome.—Italians who believe that it is still possible to find some trace of and perhaps even to rescue the men who drifted away with the balloon part of the "Nobile" dirigible Italia are attempting to raise funds for a new Arctic expedition next summer. They would lease an ice-breaker and expect the loan of a seaplane from the Italian Government.

Women Refused Franchise

Quebec.—By a vote of 50 to 16, the Quebec legislative assembly killed the bill introduced by William Tremblay, Conservative M.L.A., for Malcom, to give the women of Quebec the vote in provincial elections. This is a gain of five votes for the cause of suffrage as compared with last year.

Planes Long Flight

Toronto.—Captain Errol Boyd, a Toronto flyer, announced Tuesday he would attempt the first non-stop flight between Toronto and Mexico City "in about a month's time." The plane will be used to carry mail and passengers, he said.

Piloted Two Zeppelins

Berlin.—Walter Schers, a veteran helmsman of the air who stood at the wheel of two Zeppelins when they crossed the Atlantic to the United States, died here from balloon gas poisoning.

In Body and Chassis.... in style and stamina..... the most advanced automobile of the day

McLAUGHLIN-BUICK'S Masterpiece Bodies by Fisher mark the new motor car style — McLaughlin-Buick's adjustable front seat, full-width rear seat, adjustable steering column and other luxurious features set the new standard of comfort—and this masterly new car reveals equal leadership in engineering.

The new McLaughlin-Buick Valve-in-Head engine is the most powerful automobile engine of its size in the world. The new McLaughlin-Buick carburetor and constant pressure gas pump are the most costly and efficient employed on any car. The new McLaughlin-Buick double-drop frame is the sturdiest in this field. The McLaughlin-Buick chassis is sealed, all parts enclosed in dirt-proof, dust-proof, water-tight housings. And McLaughlin-Buick's cantilever springs and Lovejoy Hydraulic shock absorbers impart unrivaled riding luxury.

Facts like these explain why the new McLaughlin-Buick leads in performance, appearance and value, and why buyers are according it the greatest preference ever shown any fine car.

NOTES AND COMMENTS

Coleman Board of Trade has been inactive since its annual meeting held in June 1928. The reason of this is because it had no defined plan of activity, or no objective. Members paid their fee and nobody troubled any further about it. Without a definite object in view, indifference becomes rife, and a Board of Trade exists in name only. Commenting on the work of such organizations, the following from the official paper of the Canadian Chamber of Commerce is worth reading:

The Board bases its existence upon service to the business community through the improvement of trade conditions and the encouragement of general growth and prosperity. It has an opportunity, which is peculiar to it, of bringing the developed constructional abilities of successful business men into coordinated touch with economic and social life. The value of the Board of Trade to the community lies in its power to bring such ability, combined with diversified knowledge of business fundamentals, to the solution of more general problems.

Without a definite goal in view, work is liable to become haphazard and organizations tend to become satisfied with less than they otherwise would. If a well-considered program was drawn up at the commencement of the year, hitherto "disinterested" members could be empanelled into committees in which they could use their peculiar ability and talent to the best advantage, and in which they would become keenly interested. This plan is already pursued in most of the larger centres with good results and is an example which may be followed to advantage by smaller Boards. Disinterestedness is a painful situation and the application of this suggestion may be one of many palliatives for the case. The major part of the problem rests with the individual Boards themselves which should see to it that every member is actively enlisted in the work for which he is peculiarly fitted. An appreciation of the value of elementary psychology and its application goes a long way.

Newspapers throughout the world have given considerable space in comment on the meeting of the High Council of the Salvation Army, and as there is a post of the Army in Coleman, it has some local interest. Without question it is the greatest social service organization in the world, and one does not realize the extent of its work until they look at a map and see the countries of the world where it has corps established. The recent meeting in London has brought the Army before the great masses of the people in a general way as never before, and though it was for a very regrettable reason that it met, yet the Army emerges stronger than ever as a result, and higher in the estimation of the peoples of the world. Its work, right from International headquarters down to the farthest outpost, is an example of self-sacrifice and service, against which the efforts of other organizations "service" or otherwise, appear small in comparison.

The increased volume of power that has been supplied to the towns and industries throughout the Crow's Nest Pass during the past year is significant. It is a sure sign of increased activity. At the steam plant at the lake a few miles west of town, which commenced operation in 1927, the capacity is being doubled, and the output for this area is greater by far than any other district in the province. There may come the day when industries which require large quantities of coal and power may find it profitable to consider locations in this district, for immense natural resources such as exist here will surely be utilized to a far greater extent as the population of this western country increases.

Hockey play-offs cost more than is received in gate admissions. Gleichen and Coleman were drawn to play off in B. intermediate series, and to transport the teams in home and home games would entail a cost of approximately \$400, including their hotel and incidental expenses. This is too expensive for the average team, and it means that play-offs have to be forfeited or somebody must delve into their pocket to foot the bill. Coleman hockey team has paid its way this season, the rink company has received its percentage in full, and all bills have been paid. Had there been sufficient gate admissions collected during the season to pay for the play-off games, it would be easy to send the boys to Gleichen. But they cannot travel on air, consequently it is probable the game will be forfeited.

It was very pleasing to note the loyalty of Coleman high school students to their representative in the Oratory contest. Megan Jones was an able representative and was well worthy of their enthusiastic support in the Macleod inspectorate contest.

German Aerial Expedition Will Again Attempt Conquest Of the Arctic This Spring

The conquest of the Arctic will again be attempted this spring. Plans for a circuit of the Arctic regions by the German airship LZ-127 have been revealed by Capt. W. Brunz, a German member of the "Aero Arctic," an international scientific organization, who visited officials of the Interior Department seeking their co-operation.

The expedition will be undertaken within the next few months, when the sun in the far north will shine 24 hours a day and the expansion of the gas in the airship will be obtained.

The airship is being lent by the German government, while the Russian government, by erecting a mooring mast at Leningrad, is giving assistance.

An effort will be made to map certain regions in the north. Observations will be made of sea depths and weather conditions.

The "Aero Arctic" foresees the possibility of regular air routes being established between points in the Arctic circle. Another suggested is Yokohama and Vancouver, by way of the Aleutian Islands.

The airship will start from Leningrad, thence to Kolan, on the Murmansk coast, to Franz Joseph Land, across the Canadian sector to Nome, Alaska, where it will be re-provisioned, thence to Wrangel Island finally over the Polar basin.

Officials of the Interior Department are considering the possibility of sending a Canadian scientist on the expedition.

School Attendance

9,291,720 Students Are Enrolled in Educational Institutions of Canada

The number of students enrolled in the educational institutions of Canada was, according to the latest survey, 9,291,720. These included 2,027,739 in ordinary publicly controlled day schools, 102,068 in technical and evening schools, most of them under public control; 71,468 in private or independent schools; 32,549 in universities and colleges; 3,590 in preparatory courses, or affiliated to universities and colleges, in addition to those in private schools. The remainder were in business colleges, normal schools and other scholastic institutions.

The educational standing of the enrollment was 1,332,963 in elementary grades, and 300,149 in secondary or higher grades. These do not include the greater part of night school pupils.

The expenditure on public education during the year 1926-27 is given as \$125,876,875.

Fox Ranching Problems

Fox raisers and particularly beginners would do well to secure from the Publications Branch of the Department of Agriculture, at Ottawa, a copy of the first report of the Experimental Fox Ranch that has been operated in Prince Edward Island during the past three years. The ranch as described in the report is a model that might safely be followed. Problems of exercising, feeding, treatment for parasites and health are dealt with in a helpful way.

Cable Used During War

The post office cable from Peterhead to Russia, which was of great service during the war, has been dismantled. At one time a staff of forty-five was employed in handling messages at the Peterhead end of the cable, but this number gradually dwindled as the service fell into disuse.

Making a fool of a man is one job woman can beat nature at.

"Are you mad? Haven't we your mother with us?"—Moustique, Charleroi.

Cash Bonus For Farmers

Large Sum Is Distributed By Saskatchewan Wheat Pool Elevators, Ltd.

Cheques to the total amount of \$1,430,791 were recently distributed to members of the Saskatchewan Wheat Pool Elevators, Ltd., all of whom are farmers. These cheques represented the surplus earnings of the Saskatchewan Wheat Pool Elevators system for the crop year 1927-28. At the annual meeting of Saskatchewan Wheat Pool delegates held in Regina last November, it was decided that these be distributed to the members in cash. The payment is being made on the basis of 1 1/2 cents per bushel for grain delivered through Pool country elevators and one cent per bushel for grain delivered to Pool terminals over the platform.

This is the third payment in cash covering the excess charges refund which has been made to Pool members. The amount of the surplus earnings of Saskatchewan Wheat Pool Elevators Limited during 1927-28 was returned to growers in February, 1927, and amounted to \$475,000. This figure jumped to \$1,372,000 for 1926-27, and for 1927-28 to \$1,430,791.56, the amount recently distributed.

Money Needed For Montreal Harbor

Intimated That H.B. Line May Curtail Business At Eastern Port

A bill to authorize a loan of \$10,000,000 to the harbor commissioners of Montreal for extension of harbor facilities, received first reading in the House of Commons, Hon. P. J. A. Carlin, minister of marine and fisheries, explained the money was not a gift, but was a loan.

Hon. R. B. Bennett, Conservative leader, drew attention to the possibility of a curtailment of business at Montreal on account of the construction of the Hudson Bay railway. The proposed extension of the line to Winnipeg indicated that some of the business would hereafter go in that direction. Mr. Bennett stated that further discussion would be had on second reading.

January Immigration Figures

Return Movement To Canada From United States Is Noted

Immigration to Canada during January amounted to 4,164, an increase of 13 per cent. over January a year ago. British immigration for the month increased from 771 to 1,133, immigration from the United States increased from 1,223 to 1,573, immigration from other countries decreased from 1,898 to 1,458.

The return movement to the Dominion of Canadians who had gone to the United States intending to live there and who came back declaring their intention of remaining permanently in Canada, amounted during January to 1,767. These are not included in the immigration returns.

At the next World's Poultry Congress to be held at the Crystal Palace, London, England, in July 1930, it is anticipated that Canada will exhibit about 1,000 live birds. In addition the Dominion will have an educational exhibit.

The cost of the World War has been fixed by a League of Nations committee at \$362,500,000,000 (\$72,500,000,000).

Alberta School System

Total School Enrollment Is Given As 160,900

Alberta's total school enrollment is approximately 160,900.

A greater percentage of increase occurred last year in high school than in public school enrollment. The per capita cost of education for all schools in the province has remained practically stationary.

The foregoing information is contained in the annual report of the department of education, tabled in the legislature by Hon. Perren Baker, minister of education.

While the total enrollment in the schools of the province increased by 4,706 in 1928, approximately 57 per cent of this number is to be found in the high schools. In 1906 the percentage of the entire enrollment in the high school grades was 2.41 in comparison with 11.44.

During the year 56 new school districts were organized. Of these 33 are north of township 53, and 17 north of township 70. The total number of districts in the province now stands 3,497. There are, however, a total of 5,148 departments in regular operation. Eighty-one new one-room schools were built and 15 new two-room schools. This is all exclusive of the building taking place in the towns and cities.

There has been an increased demand for technical education throughout the province.

More than 1,000 more pupils wrote on the departmental examinations than ever before. In the high school grades 75.9 per cent of all the units written were passed successfully. Making an average of 75 per cent or more on all units required for matriculation or normal entrance 119 pupils obtained honors.

New text books in agriculture for both elementary and secondary schools were introduced during the year, also a new system of writing books. The latter were prepared to accompany the Alberta curriculum in writing.

Approximately \$150,000 worth of business was done in the school book branch. Ninety-four per cent of this was done with firms located in Canada. The remaining six per cent went to British and American firms.

Sea Power Is Essential

Great Britain Could Not Definitely Renounce Its Use

Unquestionably Great Britain, to reach definitely accord with the United States, would be prepared to go a long way in renouncing the use of naval power under certain conditions. It is absurd, however, to suggest, as the United States states does officially suggest, that Great Britain and other maritime powers must renounce the use of sea power under any and all possible conditions. It is no reflection on the good faith of the United States to say that in time of war not even the American navy would be useful in accordance with the terms of any such treaty.

John Decided It

The wife of a famous English Bishop—whom we shall call John Smith—was recently very ill, and required a serious operation. As she recovered from the anesthetic, she was heard to murmur: "Am I in Heaven? Am I in Heaven? No, there's John."

DOG SLED DERBY

Two "gentlemen drivers" are now entered for the Eastern International Dog Sled Derby. There was very little if any of commercialism connected heretofore, but the entry of the

Close Kinship Between Life Of Plants and Animals Is Borne Out By Interesting Experiments

Airmen Are Modest

Fame and Notoriety Do Not Seem To Affect Them

Airmen of the first rank are shy birds, for in them modesty seems innate, and it is possibly quite true that none has ever boasted of his feats in the war or of his exploits in flying. Deeds have made them known, but it is not they who gush over them. Fame, and more often a writer of notoriety, has been thrust upon them; but from it they have emerged as they do from the clouds, unruined, unaffected, reserved.

They may have flown the north Atlantic, as three did, from Dublin to Greenland Island, and be engulfed in ovations that would turn the heads of lesser kings. But when the noise subsides, and the glory they best know came so close to catastrophe, has gone down in the records of aviation, those fliers like the host of their comrades in flight doing their jobs of work, retire into unnoted privacy. Their names were in everyone's mouth; but in a few months, in a year, are difficult to recall; and they might not be remembered today had not one of the three, Baron von Huenfeldt, at Berlin, with regrettable untimeliness, taken off on his flight in death.

It was as a passenger that Von Huenfeldt joined in the north Atlantic flight, which he had made possible by expending on it all he possessed; but he was a pilot when he died, and in the last few months had flown a remarkable flight from Germany to Japan. He had joined the men who fly. Among combatants, they are apart; among civilians, they are alone. In war, as in peace, their code is exemplary in honor. It is the same for all nations, high as the ships their airmen fly. They will be availing leisure for Von Huenfeldt. He would not ask more; for the spirit of him that has taken off will be borne to the aerodrome at which all airmen must land in time, so many so early.

Air Mail For the West

Understood That Post Office Department Will Resume Winnipeg-Calgary Service

While there is good reason to believe that the cabinet greatly reduced the amount of money sought by the post office department for the extension of air mail services in the Dominion, it is understood that it is the intention of the department to proceed with the Winnipeg-Calgary service as soon as the estimates are approved by parliament.

The total amount of the increase sought by the department for air mail services is said to have exceeded \$1,000,000 and this was reduced by the sub-committee of the cabinet which reviews the estimates before their presentation to parliament to \$800,000. This reduction will compel the post office officials to exercise the greatest care in preparing their plans and in negotiating air mail contracts with private airway companies. The cost of the Winnipeg-Calgary service was estimated at between \$450,000 and \$500,000, but the department is committed in other directions in regard to air mail services and as it now stands not more than \$400,000 of this amount will be available for this service across the prairies. Notwithstanding this unfavorable situation, however, the officials will proceed with plans and make every effort so to arrange the matter that a service will be begun, probably next autumn.

His Reminder

A K.C. strolling along a street one morning, came to a fishmonger's shop. He was fascinated by the dead, expressionless eyes of the fish on a slab in the window.

"Good day," the fishmonger reminds me, "I've got to address a special jury this afternoon."

A British scientist predicts that in due time to some men will be born toothless. We thought, in our ignorance, that they usually were born that way.

No doubt there are huge taxicographers who know the exact shades of difference between honey, bolum, blah, baloney, applesauce and banana oil.

That remarkable native Indian scientist, Sir Jagadis Chandra Bose, founder and director of the Bose Research Institute at Calcutta, is an eloquent and arresting supporter of the close kinship between the life histories of plants and animals and their reactions to external stimuli. He has mustered a vast amount of experimental data in defence of his theory and these have recently been reinforced by a series of interesting experiments conducted by the Boyce Thompson Institute of the United States into the reaction of vegetables to the influence of artificial light. The results indicate that vegetables are not alike, but possess distinct individualities of their own, indeed responding with marked differences that are not very far removed from human responses under corresponding treatment.

Take the radish as an example. No one, probably, had ever suspected the radish of any great yearning after the thrills and excitements of night life. It has always seemed a sort of stodgy vegetable, despite its pungent flavor and its preference for red as a color. But the Institute reports that when the radish had its normal day extended by the concentration upon it of light designed to duplicate as far as possible the light of the sun, it perked up in surprising fashion. Indeed, it displayed a readiness to enjoy the longer hours that would have done credit to regular cabaret patrons.

Even more surprising, however, was the action of the lettuce, that bland vegetable which we know could wear an external aspect more conventionally respectable. Though a point arrived where the radish showed signs of getting tired, and of wishing that somebody would put out the light and let it go to bed, not so the lettuce. It, apparently, was prepared to stay up all night. After a straight twenty-four hours of light it was still fresh. This just goes to show that you never can tell. That may be a somewhat broad-made conclusion, but it is further borne out by the response made by the juicy and florid tomato. Here is a vegetable concerning whose sedateness and respectability not even the most suspicious observer has entertained question, even if ripe tomatoes have on occasions been involved in riotous happenings. But if the Institute's reports are correct, we have done it an injustice in suspecting it. After an eight hour undisturbed rest, it sets an example of the tomato showed signs of extreme weariness, we are told. Another half hour and it began to wilt. In kindness the lights had to be extinguished before a second hour had elapsed.

The tomato evidently knows when it has had enough. Let the radish and the lettuce turn night into day if they like, but none of this night stuff for the tomato. It prefers regular hours. Early to bed and early to rise is its motto. It sets an example of the simple, quiet and fruitful life to its neighbors of the vegetable garden.

Could Not Hold It

The station-master rushed out of his room after hearing a crash on the platform. He discerned a disheveled young man sprawled out perfectly flat among a confusion of overturned milk cans and the scattered contents of his traveling bag.

"Was he trying to catch the train?" the station-master asked of a small boy who stood by admiring the scene.

"He did catch it," said the boy, "but it got away again."

"The Geographical society says explorers should be bachelors."

"But what would keep them abroad?"

Pratt: "I understand Chicago has adopted a flower as a civic emblem."

Simpson: "Yes? What is it?"

Pratt: "Crocus."

"I am a commercial traveller in insect powder."

"That is very nice, but here we crush them between our thumb."

—Pages Gates, Tverdon.

Dashingly New
Smart side-closing coat dress with fluttering plaits across front of skirt that accent youth of wearer. It affects snugness through the hips through long-waisted bodice that serves as a hip-poke. The dart-fitted sleeves, forming tab extensions, button-trimmed, are a new style note. The one-piece collar is especially becoming. For immediate all-around wear, it is very smart made of printed rayon velvet as illustrated with collar and belt of faulle silk. Style No. 350 is designed in sizes 16, 18, 20 years, 36, 38, 40, and 42 inches bust. Feather-weight tweed, cashmere, wool jersey, silk crepe, wool crepe and crepe satin are also suitable. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

WORLD HAPPENINGS BRIEFLY TOLD

Vancouver, B.C., is under serious consideration as the site for the next \$50,000 Wrigley marathon swim. Elwood Hughes, director of the event has announced.

The Daily Mail, London, Eng., says the Czech-Slovakian minister of the interior has refused Leon Trotsky a passport visa to permit him to enter that country.

Reports from apparently well-informed quarters in Canton, said the Canton government expects the Nationalist government at Nanking soon to launch a military campaign against it.

The addition of the hash to penalties for trafficking in drugs was approved by the special committee of the House of Commons, which is considering amendments to the Opium and Narcotic Drugs Act.

Approximately 35,000 bushels of seed have been graded and sealed under registered grades since the Dominion seed branch of the Department of Agriculture started operations in Saskatchewan at the beginning of the year.

"The recommendations of the Imperial wireless and cable conference, 1928, have been in general accepted by the governments concerned, including the government of Canada," Hon. P. J. Veniot, postmaster-general, stated in the House of Commons.

The Toronto city council has authorized the board of control to call for designs for a memorial to Sir Adam Beck. The memorial is not to cost more than \$25,000, and its main feature is to be a bronze statue of Sir Adam. The monument will be erected on University Avenue, Toronto.

Nobody ever has to take a tonic to create an appetite for fattery.

"PINKHAM'S COMPOUND IS WONDERFUL"

[Read This Letter from a Grateful Woman]

Vanessa, Ont.—"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."—MRS. MILTON McMULLEN, Vanessa, Ontario.

W. N. U. 1776

Britain's Wheat Market Valuable To Canada

Interesting Facts Brought Out In Report Published From Ottawa
The market in Great Britain is worth twice as much to the Canadian wheat grower as the markets of all the rest of the world taken together. That is a fact that stands out in a report published from Ottawa giving the export figures for the present crop year up to date. Putting it another way, if all other countries barred our wheat by excluding tariffs, the Canadian farmer could still find a market for two-thirds the amount of wheat he now produces—in Great Britain. Or, if Britain barred our wheat, we would have to find buyers elsewhere for three times the amount of wheat we are able to sell in other countries at present.

Canadian wheat—and every other Canadian product—has a preference in Great Britain. The proof is that no other importing country in Europe admits our wheat on the same favorable terms. Should Britain ever adopt a tariff, there is no doubt whatever that Canadian wheat would be admitted on the most favorable conditions granted to any wheat-growing country. A tariff is being actually proposed there in order that a financial preference could be given to Canadian wheat. The British market is the permanent outlet for Canada's surplus wheat crop, incomparably the largest outlet there is, and the largest there is likely to be. That is a fact which Canadians ought to keep in mind when they think of international trade—and when they are thinking of buying imported goods.—Edmonton Bulletin.

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes—"Several years ago I was troubled with my heart and nerves so bad, at times my hands would become numb and cold. I took doctor's medicine for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble."
Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Dirigible Flight Delayed

Giant British Craft Not Making Trip To Canada Until July
The flight of the dirigible R-100 from England to Canada will probably be made towards the end of July, it was learned at the department of national defence. It had been set for the end of May, but technical improvements to the craft are being made which will necessitate delay.

Officials of the department regard the flight as one of the most important steps in inter-empire communication so far attempted. Possibility of a route to Australia across Canada is not considered beyond the bounds of possibility.

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

What "It" Is

Perhaps this can be applied generally to all husbands, but a woman in the Wiltshire police court recently defined the word "it" as used by the famous woman novelist. The clerk pointed to a man in court and said "Is that your husband?" She replied, "Yes, sir, that's it."

A philosopher is a man who never feels badly after he has made an ass of himself.

INDIGESTION RELIEVED

QUICKLY RELIEVED BY THESE LITTLE PILLS
These little pills taken after meals or at bedtime will do wonders, especially when you have overeating or are troubled with constipation. Remember they are Dr. Carter's Little Pills. Young and old can take them. All Druggists 25c and 50c per box.

THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.

Scott's Emulsion

is the easy and pleasant way to exact the most out of cod-liver oil to reinforce your body with strength to build resistance.

Scott & Bowne, Toronto, Ont. 25-8

SUNDAY SCHOOL LESSON

MARCH 10

BAPTISM AND THE LORD'S SUPPER

Golden Text: "This do in remembrance of Me." Corinthians 11:24.
Lesson: Matthew 3:13-17; 28:19; 20: Acts 2:38, 41; Romans 6:1-14; 1 Corinthians 10:16, 17.
Devotional Reading: Revelation 7: 9-17.

Explanations and Comments

Christ's Commission To Baptize All the Nations, Matthew 28:19-20.—Upon a mountain in Galilee after the resurrection of Jesus, the eleven disciples saw Him and worshiped Him. He told them of His universal dominion ("All authority hath been given me in heaven and on earth"), and gave them His world-wide commission to make His power a reality: "Go ye therefore, and make disciples of all nations."

"Remember, fellow Christians, how wide was the horizon of Jesus. Our horizon was from cradle to home, school, city, country, and, with some, perhaps, to the last man. But to Jesus the outside rim of the earth was the first horizon that He saw, and the last. When He was born, good tidings came to whom?—the Jews? 'Unto all people'; 'among all nations'; 'throughout the whole world'; 'to every creature'; 'to the uttermost part of the earth'; are Christ's words. 'Go ye into all the world and preach the Gospel to every creature.'—Maltbie D. Baileys.

Jesus directed His followers to baptize disciples into the name of the Father, and of the Son, and of the Holy Spirit; teaching them to observe all things whatsoever He commanded them. "Baptism is (1) into the name of the Father, as our Creator; (2) into the name of the Son; (3) into the name of the Holy Spirit. We give baptism in His guidance, as our Sanctifier, Teacher, Guide and Comforter."

And then Jesus gave His wonderful words of comfort and encouragement and cheer: "Lo, I am with you always, (not will be, but am), 'even unto the end of the world.'"

Our responsibility for missionary work is placed in the context of Christ; our power for that work is perfect in this great promise of Christ.

Success and Happiness

People Do Not Fail Entirely Who Never Reached Goal

Mr. Edison, on his eighty-second birthday, told a number of associated newspapermen that he was not acquainted with anyone who was happy. There is no reason to suppose that Mr. Edison was jesting and it would be an impertinence to suggest that he does not know his own mind. But if by "happiness" he means what tens of thousands of his fellow men mean—the satisfaction of having tried hard and won—Mr. Edison is clearly stretching a point, since in that case he himself would be one of the happiest of men. He has gone from victory to victory in the world of scientific invention and he will leave an undying name behind him. In some few things he may not, in his own opinion, have succeeded; but this is not to say that he failed. You do not necessarily fail entirely because you do not wholly succeed; and Thomas A. Edison has been a very notable success.

When a mother detects from the writhing and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will clear all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

The Good Old Days

Maybe Tom can live cheaper than one, after all. Mr. and Mrs. Tom Lovelock, of Lynchem, England, in celebrating their golden wedding anniversary, revealed that they were married when Lovelock was making but \$25.00 a week and that shortly after his salary was reduced to \$22.50.

Scientist says life evolved in a series of jumps, and a cursory inspection of our thoroughfares convinces us it is still evolving that way.

Minard's Linctant For Coughs and Colds.

Want Rail Deal Approved

Agreement Between Railways and Province Of Alberta Up For Ratification

Approval of the agreement between the C.N.R., the C.P.R. and the Province of Alberta, for the purchase of the undertakings of the Edmonton, Dunvegan and British Columbia railways; the Central Canada Railway Company; the Central Canada Express Company; the Alberta Great Waterways Company, is sought in a resolution placed on the order paper of the House of Commons, by Hon. C. A. Dunning, Minister of Railways and Canals.

The resolution seeks further authority: "To incorporate the Northern Alberta Railways Company, in which are to be vested the said jointly acquired railways."

"To authorize the Governor-in-Council to guarantee the principal and interest of the securities to be issued by the Canadian National Railway Company, to an amount or amounts fixed from time to time by the Governor-in-Council for the payment of one-half the purchase, and one-half the obligations assumed under the said agreement."

The Explanation

"I bought a new car and gave my piano-player as first payment." "I didn't know they accepted piano-players as payment on new cars."

"They don't usually, but the sales man is a neighbor of mine."

Mother (giving afternoon tea instructions): "Now, remember, Willie, when these cakes are baked round you must take a plain bun from the bottom of the dish."

Willie (disgustedly): "Just my luck! The bargain basement again!"

"Dick is all right if you know how to take him."

"I hate these people who have to be labelled like a bottle of medicine."

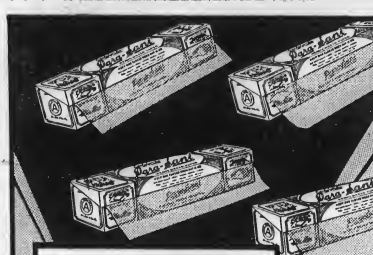

You Can't Dye a Dress with Promises!

You can't dye a dress—no matter how careful you may be—without real color. That's the idea behind Diamond Dyes. They are made to give you real service. They contain from three to five times more aniline than other dyes on the market.

Next time you want to dye, try Diamond Dyes. See how easy it is to use them. Then compare results. Note the absence of that re-dyed look; of streaking, or spotting. See how soft, bright, new-looking the colors are. Then observe how they keep their brilliance through wear and washing. If you don't agree Diamond Dyes are better dyes, your dealer will refund your money.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

CHAPTER XV.—Continued

For a moment Connie was silent. "When—when my dreams come true," she responded with an embarrassed smile.

Then he told her of the city and its ways and the things people did. She listened, not with amazement, but with a contented smile, as though what he told her was confirmation of her dreams. But when he told her of the grand opera, the music, the costumes and the singing, her grey eyes wide with longing, she sighed deeply.

Donald's voice trailed to a drowsy close; his chest rose and fell regularly, his features relaxed. He felt as though he were floating, exquisitely floating, on a sea of fleecy clouds that was bearing him softly away. A delicious languor enthralled him—an enchantment drowsy and dim. He felt himself drifting, drifting. . . . He was asleep.

The willows at the lower end of the meadow were pushed cautiously aside, and Hand's head appeared in the opening. For two days he had lain hidden awaiting an opportunity to waylay Donald. The day after the fight he had boarded the train for the coast, but had slipped from the car at the station below.

His face—unprepossessing at its best—was now a horrible sight. His thick lips were swollen and cracked, the eyes discoloured and puffed, and the broken teeth bared in a snarl as he saw Donald lying by the stream. Every hour since the fight Hand's hatred for Donald had grown blacker, his eyes more swollen and puffed, and the broken teeth bared in a snarl as he saw Donald lying by the stream. Every hour since the fight Hand's hatred for Donald had grown blacker, his eyes more swollen and puffed, and the broken teeth bared in a snarl as he saw Donald lying by the stream.

Connie sat gazing down on the sleeper. A sudden thought seized her, bringing a warm flush to her cheeks. Why not? No one would ever know. Would she dare? She glanced timidly about her, then leaned slowly over, her curls falling about her face, and touched her soft lips to Donald's cheek.

A bluejay screamed derisively. Connie came to her feet, her face crimson. Donald stirred, opened his eyes, and painfully raised himself. "I'm sorry, Connie," he apologized. "It was very rude of me to go to sleep."

A moment later he walked down the hill. Connie accompanied him a short distance, then turned up a steep path, and from a high, rocky ridge she watched his retreating figure as he turned to the den.

A huge bucket on a cable, that had been used during construction for carrying men and material across the roaring chasm below the falls, still hung above the boiling waters.

For Donald there was a certain thrill, a keen exhilaration, in swinging in mid-air in this crude conveyance. He stepped into the bucket and with his one good arm pulled it along the rusty cable.

The Breed, hidden near the trail near Donald as he walked toward the dam. The venomous look in his eyes gave place to one of strained interest as he saw the two men skulking menacingly after the unsuspecting man. With a feeling of malignant excitement, as he sensed disaster to the man he hated, he hobbled to the trail and furiously confronted them.

From the heights above Connie saw the sneaking figures as they crouched low against the edge of the dark spruces and at once divined their murderous object. For so instant she was paralyzed with terror. Her lips refused to move and her limbs grew numb.

The men moved cautiously as they approached their intended victim, fearing that he might be armed. As Hand saw Donald suspended over the river, a look of feigned astonishment crossed his features. Here was a chance to dispose of his enemy with no trace of the crime. He tore a fire-axe from the wall of the tool house and ran to the swaying cable.

"Joe! Stop them. Stop them!" Screeching again, she plunged straight down the hillside in a mad frenzy at the sight of the men. Running like a deer, stumbling and falling, her breath coming in short gasps, she ran wildly on. Snarls of the thorny crabapple tore at her, devil's-club lacerated her face and arms, she prayed aloud in mad haste, but she felt no pain. "Help me! Help me! Help me save him! Help me save him!"

Donald's face blanched at the sound of the axe as it bit into the heavy cable. He looked down at the jagged rocks and seething waters below. Then with closed eyes and a prayer on his lips he tore in mad haste at the rope. Desperately he tugged with both hands, although the pain from his broken wrist sent a wave of torment up his arm that sickened him.

No man can measure the speed of thought in a crisis; even the sluggish brain of the Breed functioned rapidly. Connie was not for him. Her happiness was bound up in the man working feverishly at the haul-buckle. There was not one chance in a million that he would gain the safety of the cliff before the strands parted to plunge him to eternity. As he heard the crashing of Connie's slender body as she tore down the hill, a softness crept into his eyes. With a speed incredible in one with his pitiful deformity, he ran in a series of bounding steps to the edge of the bluff. The noise of tumbling waters drowned the sound of his approach. Just as Hand raised his axe for the final blow, the muscular arms of the Breed were flung about him. Emitting a startled curse, the big man turned and with a twist of his powerful shoulders flung his dusky assailant to the ground. As he rose Hand swung viciously at him with the axe.

With a quick movement the Breed dodged, and the weapon flashed over his head, flew from the big man's hands, and struck his confederate, a glancing blow on the shoulder that brought from him a howl of pain. Again the Breed's arms closed about his adversary's waist. Mad with the pain in his shoulder, the foreigner drew a long, keen knife, circled warily about the two wrestling men until he found an opening, then plunged the knife to the hilt in the Breed's left side. The stricken man, slithered from his opponent's arms and fell a crumpled heap to the ground.

Sick and giddy, Donald stumbled from the bucket, seized the axe and advanced weakly toward Hand. Hand's accomplice, taking one look

at the prostrate body, turned and fled terror-stricken to the woods. Hand hesitated for a moment, then followed heavily after.

At this moment, Connie, with clothes torn and hair dishevelled, broke from the woods, and with a cry of pity flung herself to the ground by the Breed's side and placed his head on her lap. The eyes of the wounded man flickered slowly open. He tried to speak, but a strong convulsion shook his frame from head to foot and he writhed in desperate agony.

Connie's face as she lifted it to Donald was drawn with grief. "Get me some water please," she said brokenly.

The dying man's lips moved. Connie leaned closer.

"I—love you," he whispered faintly. "I—saw him—for you."

A ghastly pallor spread over his features and his lips were widely parted in a struggle for breath. Again his lips moved in a fluttering whisper. "Connie—will—you—kiss me?"

As Connie pressed her tear-wet face to his pain-contorted features relaxed in a smile of wonderful peace and his eyes closed.

When Donald returned Connie's head was bowed and she was weeping softly.

"How is he, Connie?" he questioned gently.

"He's dead."

Donald removed his hat and knelt with bowed head.

"He died for me," he choked.

"And for me," she whispered inaudibly.

CHAPTER XVI.

Least we tire of monotony, Nature gives us a change of colour for each of the flowering seasons. Flowers of every hue may be found through the different months. Pink for May, red for June, blue and pink for July, and during August royal robes of gold and purple clothe the hills and valleys.

The last weeks of August brought to Summit Lake a pageantry of color that the Coast region is denied owing to the persistent rains that retard the ripening of the leaf. The deciduous trees were already withdrawing their life-giving fluid from the leaves to store it in their roots until spring. The willow, vine maple, birch and alder along the creeks and lake-shore held touches of autumnal colouring; while on the hills the yellowed leaves of the cottonwood were brilliant in their setting of sober dark green canopies.

A gush of red were the vine maples, but there was a leafy beauty greater than theirs. The flowering dogwood blazed from every nook and cranny. The ripening of the dogwood gives to its leaves a flame that burns with a fierce glow; glow that further deepens as the leaves turn. Its crimson flush becomes the loveliest hue of the British Columbia woods.

The freeweed, or willow herb, that in July gives to the open spaces a gorgeous tint of blue pink, were now losing a flock of seeds to float away like tiny parachutes. Each small bit of fluff held a minute germ of life that would build a plant as large as its parent when, dropped by the friendly wind, it reaches a fertile spot. The stately cottonwoods were sending out a life-wif in tiny sails that from the smaller plants, Thistles, cat-tails and asters hurried to join the stately clouds until the air was misty with these germ balloons. Seeking their winter's rest, the red elderberry and its magenta neighbour, the thimble berry, with its translucent Scotch cap, gave to the woods a material flame.

A curious timidity had come over the birds; not only were they quiet but they were no longer to be found in their usual haunts. In some retired spot they were moulting. While the weather was at its best, and food was the most plentiful, they were dressing themselves in a new set of feathers for their long flight to the north. The tops of the tall pines were filled with sweet twitterings, as fledglings out and in, with calls and quick short flights. A flock of waxwings had gathered for the migration. They would not leave for some time yet, but the change had come. Birds from the north had arrived creeping south by easy stages, taking plenty of time in their journey—the true creatures that live, staying or going as they feel inclined.

(To Be Continued.)

What League Has Cost Canada

The League of Nations has cost Canada \$1,636,515.70 since its inception to the present, was the reply in the House of Commons to a query by T. L. Church, Conservative, Toronto, N.W.

When a carefully considered plan promises success, never hesitate to take the chance.

Little Helps For This Week

"And Jesus saith unto them, How many leaves have ye?—Matthew xv. 34.

So still, dear Lord, in every place Thou standest by the tolling clock. With doves and pity in Thy face, And givest of Thy help and grace To those who meekly bear the yoke.

The lives which seem so poor and low,

The hearts which are so cramped and dull,

The baffled hopes, the impulse slow, Thy touch, thy love, and—lo!—and lo!

Thy blossom to the beautiful.

—Susan Coolidge.

"How many leaves have ye?" It is the Lord's first question; and the hands of those who really want His help search their robes to see what they have hidden there. One brings his joy; another brings his pain; another brings his helpless desire; another brings his poor resolution; another has nothing to bring except just his sorrow that he has nothing. It is a poor collection,—only seven leaves and a few little fishes,—but it is enough: His blessing falls upon them, and they come back to the world which gave them up to Him multiplied into the means of healthy, holy happy life.—Phillips Brooks.

Savings Certificates Popular

That Alberta Government Provincial Savings Certificates are recognized as a sound investment is indicated by the fact that sales during 1928 reached a total of \$815,960 over and above all withdrawals. The net purchases during the year were more than double those of 1927. A report for the year by the Treasury Department places the total amount of outstanding savings certificates at \$11,264,940. These certificates are held largely by farmers of the province.

"Laugh heartily, speak kindly, and agree willingly," are among a list of health rules issued by Dr. W. A. Daley, Hull, England, medical officer.

No Ground For Pessimism

Statistics Show Large Percentage of University Graduates Remain in Canada

An independent survey of figures dealing with the whereabouts of our university graduates is somewhat enlightening in the way of refuting exaggerated statements to the effect that they are flocking to the United States. The latest available statistics show that 82.8 per cent. of the living graduates of the University of Toronto are resident in Canada and only 13.6 per cent. in the United States; the University of Western Ontario has retained 80 per cent., while 98 per cent. of the University of Manitoba's graduates have remained in their native country. This story finds a repetition in almost every college in the Dominion. Moreover, many graduates have found their way elsewhere only temporarily and will return in due course. Evidently there is not so much room for pessimism as many have imagined.

STORMY WEATHER

HARD ON BABY

The stormy, blustery weather which Canadians experience during February and March is extremely hard on babies and young children. Conditions make it necessary for the mother to keep her child in the house, whose rooms may be overheated or badly ventilated. The little ones catch cold and their whole system becomes racked. To guard against this a box of Baby's Own Tablets should be kept in the home and an occasional dose given the baby to keep him fit, or if a cold suddenly grips him to restore him to health again and keep him in good condition till the brighter, warmer days come along again.

Baby's Own Tablets are just what the mother needs for her little ones. They are a mild but thorough laxative, which regulate the bowels, sweeten the stomach; break up colds and simple fevers; banish constipation and indigestion and make the cutting of teeth easy. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Only the office with no salary attached is obliged to seek the man.

To Check "FLU," Gripe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville's. Half a teaspoonful of Nerville's in a glass of water makes a most efficient gargle. The germ-killing properties of Nerville's quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerville's. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs and rid the system of disease-breeding wastes. This combination treatment of Nerville's and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

WINDOLITE The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THE SUN is the all-powerful life producer. Nature's universal disinfectant and germ destroyer. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays and that it has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increased the egg-laying capacity and fertility of chickens, greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light hit strong windows for cattle sheds, dairy stalls, poultry houses, brooders and all buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, school factories, hospitals, restaurants, bot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 56 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

A CASE WHERE EVERYONE LOSES

The following from the Western Canada Coal Review is worthy of reprinting:

"The ending of the long drawn out dispute in the Wayne district once again proves the futility of the strike as an industrial weapon. The tie-up has extended through the most productive months of the year. It has kept coal from several of the Wayne mines off the market at a time when coal was most in demand. The operators have lost tonnage, the men have lost wages and local merchants have lost business, and we cannot see that anyone has gained.

In the first place the trouble arose over certain revised screening arrangements the operators found it necessary to install in order to meet competition. Although the interest of the men was protected, they used the new screens as a bargaining point for demanding recognition of the Mine Workers Union of Canada.

Thus was born the impasse: the operators stood upon the award of the Board of Conciliation. Their unwillingness to acknowledge the M. W. U. C., was not based upon objection to a union so much as they were not altogether sure of the motives of the union itself.

Both sides stood pat and the mines shut down for nearly half a year. Early this month they got

together and made mutual concessions—and the trouble dissolved into thin air overnight which demonstrates that the strike is the most ineffective and inefficient means of enforcing labor demands.

Every strike is eventually settled by discussion and compromise. It would seem therefore, that before a shut down occurs is the time to explore every avenue of compromise rather than to do so after the mines have been idle for months.

Arbitration, continued until a basis of agreement is reached, is the only solution to an industrial dispute. Ceasing work is not, and the sooner this is realized the better for all concerned. Everybody loses and no one gains as the result of a strike, but the loss falls heaviest upon the men, so it is the men who should be the last to talk of downing tools, and the last to give up hopes of an amicable settlement as the outcome of mutual concessions.

ST. ALBAN'S CHURCH, COLEMAN

Evensong every Wednesday during Lent at 8 p. m. Choir practice the same day at 7 p. m.

Sunday, March 10, evensong at 7 p. m. Vestry meeting at close of the service.

The W. A. of St. Alban's church will hold a daffodil tea, sale of home cooking, candy stall and sale of work on Saturday, March 30, from 2 to 6 p. m., the Saturday before Easter Day.

Personal and Local

Born: To Mr and Mrs Naylor, on March 4 twins, (a boy and girl).

The W.M.S. of St. Paul's United Church will hold a sale of home cooking and tea in the club rooms on March 30, from 3 to 6 p. m.

Mr. Elmer Leisner, principal of Macleod school, was the guest of Mr. and Mrs. H. W. Clark over the week end.

Mr. G. R. Powell returned on Monday from Calgary, after spending a few days visiting at the home of his son, Ross G. Powell.

George Graham is at present staying with his parents here, after having been at Lacombe with his brother Charles since last summer.

Coleman rinks skipped by J. Bell, J. S. D'Appollonia and J. M. Allan, played three rinks at Belleve last Friday, winning by 39-29.

The Dollar Day sale at Laslett's store last Saturday saw quite a large number of bargains secured by early shoppers.

Mrs. E. V. Peet enjoyed a visit from her father this week, he having called here while on a trip from Vancouver.

The house on Sixth street formerly occupied by Mr. and Mrs. Ferguson has been sold by them to Hugh Dunlop, who with his family moved in during the week.

The prize winners at the K. of P. whist drive last Saturday were Mrs. F. Mary, J. Beveridge, E. Hill, Jr., and C. Murdoch. A pleasant dance followed the whist games, with music by Mrs. Salt's orchestra.

Mrs. J. Cones and young son arrived on Monday morning from Liverpool, to live in Coleman, her husband having been working here for the past year. She travelled via the "Andania" of the Cunard Line.

Major R. F. Barnes returned this week from several weeks spent at Fort Osborne barracks, Winnipeg. Mrs. Barnes, who for several weeks was visiting friends in Manitoba and later in Calgary, returned on Saturday.

Spring is here, by all the signs of the past week. A welcome visitor at The Journal office was Forest Ranger G. A. Ritchie, of the South Fork, well known for his genial good nature and hearty word of welcome to all who visit that part of the country. Mr. Ritchie says there is no fairer beauty spot in the mountains than in the South Fork district, and those who have been there agree with him.

O. E. S. Whiteside, general manager of the International Co., and G. Kellock, vice-president of McGillivray Co., are attending the annual meeting of the Canadian Institute of Mining and Metallurgy in Winnipeg. Mr. Whiteside being chairman of the meeting.

Ruth Elder, starring with Richard Dix in "Moran of the Marines" at the Palace, will be remembered as the young lady who attempted an airplane flight across the Atlantic and was forced down in mid-ocean, being rescued with her companion by a tramp steamer.

Miss Margaret Price left on Sunday of last week to commence training as a nurse at the Royal Alexandra hospital at Edmonton. The week prior to her leaving many parties were held in her honor by her girl friends, she having been a pupil at the high school here and very popular.

The salesman of printing from outside does not stay in town any longer than is necessary to grab what orders he can. He purchases nothing from local stores, he pays no business tax or any other tax, and the only money he spends may be for a meal at a restaurant. Money spent in buying printing from The Journal goes back into local business. Local business men look to the local newspaper to help boost local business. Example is the best way to achieve this, and everyone concerned receives the benefit.

The Journal has a list of attractive cuts for Easter advertising which are very effective.

The L.O.B.A. will hold a sale of work and home cooking and tea will be served from 3 to 6 p. m. in the K. of P. hall on Saturday, Mar. 16, 27-2c.

NOTICE RE CHANGE OF BUSINESS

All parties having accounts against the Radio Cafe, Coleman, Alberta, should send them to the undersigned by March 15, 1929, and all monies owing to the Radio Cafe must be paid forthwith. The name has been changed to the New York Cafe, Mah Quong, Proprietor.

Here and There

In 1921 the Canadian Pacific paid out \$2,000,000 from freight revenue in loss and damage claims. In 1927 it paid \$700,000, a decrease of \$1,300,000, although in the same period the gross freight revenue had increased by \$15,000,000. Better freight handling did it.

The stonework and most of the partitioning of the Royal York Hotel have been completed, and there appears to be no doubt that the great building will be open to the travelling public by June 1. This hotel is the largest and tallest in the British Empire.

Some idea of the world-wide area over which the Canadian Pacific operates may be gathered from the fact that in making out its monthly balance it is necessary to turn fifty-nine different foreign currencies into dollars in order to get an accurate result in Canadian money.

Wireless is now being used to aid in the protection of forests against fire. The Ontario Provincial government planes are equipped with the latest apparatus with a radius of 400 miles, so that the headquarters may be readily communicated with and immediate steps taken upon the discovery of an outbreak.

"The principle of rapid freezing has such qualifications that there seems to be little room for doubt that it is going to revolutionize the fishing industry," stated W. A. Ford, deputy minister of fisheries. We intend to make the experimental station at Halifax of the utmost value to the whole industry.

W. J. C. Madden of Calgary, is making arrangements with the Canadian Pacific Express Company for the transportation of whitefish caught in Great Slave Lake from Edmonton to Chicago. It is intended that the distance from the fishing ground to rail head will be covered in winter by five-ton trucks operating upon the thick ice of the Slave and Athabasca Rivers, traversing country that would otherwise be difficult to cross.

A new and strange form of wildfowl is being imported into Alberta by the Calgary Fish and Game Association, which has arranged to secure 2,000 Mongolian and Chinese ring-necked pheasants. The birds are to be liberated this summer throughout the southern part of the province, where 1800 were placed last season as part of the Game Association's plan for re-stocking Alberta's game bird supply. With all these Oriental birds loose the ancient Yellow Peril seems more imminent.

The Great-West Canadian Folk Song, Folkdance and Handicrafts Festival, to be held at Regina, March 20-23, will not be devoted entirely to the cultures of other than people of British origin, notwithstanding that eighteen different races will be represented. Here we have some of Jean Gaud's pupils in a Welsh Folk Dance. Scotch and English folk-songs and dances will also be interpreted, and the Irish, too.
